

MEASURING GUIDE

Please see below for specific measurements required:

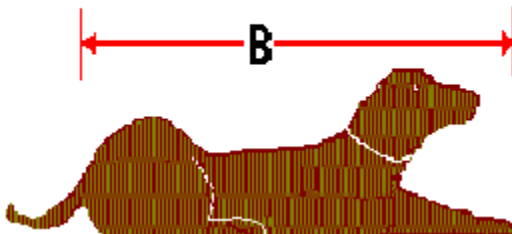

A. Height while sitting on hind legs from floor to top of head or ears (if they stick up) = Inches

Please refer to diagram below

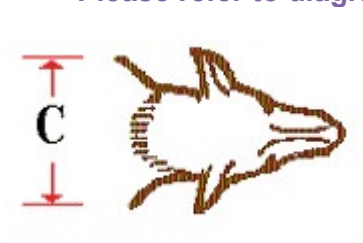

B. Length whilst laid in Sphinx Cat position from end of bottom/ root of tail to tip of paws (do not include tail) = Inches

Please refer to diagram below

C. Width whilst standing next to/ over your dog (keep tape measure straight, do not bend round) at widest part of body whether it is Chest, Shoulders, Waist or Hips = Inches

Please refer to diagram below

D. Weight Kgs

Please note with regards to Puppies

As they are growing all the time, we can only provide a rough cost at this time. If you were to book with us then we would ask - that you

re-measure your puppy as per our guide above about a week prior to departure. That way we can make sure we are providing the correct kennel size. **PLEASE NOTE** - If a bigger kennel is required then additional charges will apply.
